How can we end the Argument with Actors in the TI
Community?**

**In order to get root you need sudo password or
or root password sudo -i su root which are both
pre set with ("passwd") command so how are you
gonna do that? Both Root and User have a sudo
and root password on this machine you know.**

**Also you are going after no real assets of
any kind, the people you got into have no
important assets of any kind and nothing
to hide, so it is pointless to "hack" into
those accounts and computers it is a LOW.
Also threatening to hack others and calling
yourself a hacker are rookie mistakes on
the internet that you should not do.**

**The only real gang stalkers are Script
Kiddies, Karens, Liberals, Social Justice
Warriors, People who believe in the patriot
act or censoring others they do not agree
with like they do in Communist Contries.
So all the baseless arguments The Actors
have made are a waste of everyones time.**
